

Sketch group in De Kop wants to sketch together again

In the Kop van Overijssel Rietje Veltkamp takes the initiative to sketch outside again. Now that the corona rules have become a little more flexible, there is room to appeal to people who like to come outside sketching. All kind of people are welcome!

Villages and towns

'De Kop' with the suburb of Meppel is mainly a green area with picturesque (port) towns and villages that have remained village. In times of 'building the Netherlands', it is also important to keep looking at its value and capturing it. Rietje studied art in the eighties. She likes to inform beginners with her knowledge and experience when needed. Furthermore, it is mainly: just do, because by sketching regularly you become more and more convenient.

Reservation

It is necessary to make an reservation, especially during the corona crisis the group size is limited because we have to keep enough distance. This can be done via the group page on facebook: Urban Sketchers Kop van Overijssel. You can also send an e-mail: g.h.veltkamp@gmail.com or call: 0521 857735 for information.
